

NAME: Oakley

GENDER: Male

DATE OF BIRTH: September 17, 2023

FUR LENGTH: Short

COLOR: White

**Purrsonality:** Oakley is a wonderful and affectionate boy that loves giving people hugs and being carried around. He is submissive with other cats and avoids conflicts. He likes to play with other cats and attacks feather toys with a vengeance.

**Children?** Oakley would do great with kids of all ages but given his large size younger children should be supervised in picking him up.

**Other cats?** Oakley is a submissive boy and will shrink away from challenges like extended eye contact or physical blocking. He wishes everyone could just get along and be happy.

**Dogs?** Oakley has shown interest in his foster's dog but never met him up close.

**Background:** Oakley was found in the garden center at the Chantilly Lowe's. He had been discovered with a few other cats making a living hunting mice and getting by employees. Recognized as a newcomer, an employee who knew of a family that has rescued cats mentioned him to the daughter. He was friendly so she took him home, intending to get him vetted and keep him. But Oakley did not get along with her cats. She didn't have enough funds to get him neutered so she turned him over to 4Paws. Once he was neutered and knew he was safe he turned into a mush of a cat.

**Medical or special care notes:** Oakley has had vaccinations for rabies and distemper, is microchipped, and has been neutered. He has tested negative for FeLV. He is FIV positive. For details about living with an FIV+ cat please go to <https://vbspca.com/what-you-should-know-when-adopting-an-fiv-positive-cat/>
