

NAME: Obie

GENDER: Male

DATE OF BIRTH: September 10, 2016

FUR LENGTH: Short

COLOR: Orange/white tabby

**Purrsonality:** Obie is respectful of other cats and has not hissed or growled even he was placed in a large floor cage which allowed the loose foster cats to approach him. The foster cats did not react to Obie which demonstrates his ability to be accepted by many types of purrsonalities. takes time to become comfortable in new situations. He was a goofy and very cute head tilt which was medically cleared. He likes people and other cats.

**Children?** Obie would do best with older children, ages 12+

**Other cats?** Obie will need to go to a home with another friendly kitty to help him feel comfortable. He would do well with friendly cats of all ages but he is older and less tolerant of energetic kittens.

**Dogs?** Obie should do OK with dogs.

**Background:** Obie was initially adopted with Big Tiny from Berkeley County Shelter in West Virginia. Their owner lived with her parents and became too busy to care for the cats, so she worked with a 4Paws Rescue partner to rehome them.

**Medical or special care notes:** Obie has had vaccinations for rabies and distemper, is microchipped, and has been neutered. Countryside Animal Hospital examined Obie for a cause or condition that would result in his head tilt, but their exam came back normal. He tested negative for FeLV and FIV. He is eating Fancy Feast classic pate and Purina One kibble. Obie's adoption fee has been sponsored by a generous 4Paws donor.
