Purrsonality: Midnight is a playful young girl that likes getting petted and chasing her toys. She came with her sister Misty but they are not bonded. Midnight likes to sit near the windows in the sun and watch the outside activities.

Children? Midnight should do well with kids of any age.

Other cats? Midnight would do well with other cats but can go as an only cat.

Dogs? Midnight has never been tested with dogs but given her young age should be adaptable if the resident dogs are calm and friendly.

Background: Midnight and her sister came from an area in West Virginia with a lot of stray cats. Her mother, Spooky, was adopted from the café in May 2024. Midnight looks like Spooky but is a little larger. Midnight became very sick in foster with a high fever and was diagnosed with an upper respiratory infection, which is common among rescue cats. Fortunately, it is treatable and she was quickly on the road to recovery. Now she is ready for her forever home!

Medical or special care notes: Midnight has had vaccinations for rabies and distemper, is microchipped, and has been spayed. She has tested negative for FeLV and FIV. She is eating Fancy Feast classic pate and Purina One kibble.
