

NAME: Chip

GENDER: Male

DATE OF BIRTH: April 26th, 2009

FUR LENGTH: Short

COLOR: Orange tabby

Purrsonality: I'm calm, like rubbing up against people, and napping on cushy beds!

Children: I need to be handled gently, so kids 16+ would be OK.

Other cats: I get along with other cats, but I've been challenged by some males, so I would do best with females or males I have an established relationship with. I can also be a solo cat!

Dogs: I would probably do OK with mature, quiet dogs.

Background: I was living outside and being fed by an elderly man until he had to move away. He wanted to make sure that I would be taken care of, so 4Paws took me and is helping me find a good home!

I had a lot of mats, so I needed some necessary grooming that led to a pretty bad haircut! Please pardon my appearance.

Medical or special care notes: Chip has had his vaccinations, is microchipped, and has been neutered. He has tested negative for FeLV and FIV. Because of his age, Chip had blood and urine panels, and a thyroid test. He passed all three with flying colors! The vet also said his teeth and gums are in good condition.
