

NAME: Obie and Big Tiny

GENDER: Males

DATE OF BIRTH: Obie 9/10/16, Big Tiny,  
9/10/18

FUR LENGTH: Obie: short, Big Tiny: long

COLOR: Obie: Orange/white tabby, Big Tiny: Brown tabby

**Purrsonality:** Obie and Big Tiny are two bonded older boys that like relaxing with each other and getting pets from people. They are respectful of other cats and have not hissed or growled even when they were placed in a large floor cage which allowed the loose foster cats to approach them. The foster cats did not react to either Obie or Big Tiny as well, which demonstrates their ability to be accepted by many types of purrsonalities. Big Tiny is more outgoing than Obie but Obie is not skittish, he just takes longer to become comfortable in new situations.

**Children?** Obie and Big Tiny would do best with older children, ages 12+

**Other cats?** Obie and Big Tiny would do OK with friendly cats of all ages but they are older and less tolerant of energetic kittens.

**Dogs?** Obie and Big Tiny should do OK with dogs.

**Background:** Obie and Big Tiny were initially adopted from Berkeley County Shelter in West Virginia. Their owner lived with her parents and became too busy to care for the cats, so she worked with a 4Paws Rescue partner to rehome them.

**Medical or special care notes:** Obie and Big Tiny have had vaccinations for rabies and distemper, are microchipped, and have been neutered. They tested negative for FeLV and FIV. They are eating Fancy Feast classic pate and Purina One kibble.
